BIOFIRE® SPOTFIRE® SYSTEM

FASTER. SMALLER. SMARTER.

Many illnesses present with similar signs and symptoms. The innovative BIOFIRE® SPOTFIRE® System is designed to run the BIOFIRE® SPOTFIRE® Panels. This solution is built on proven BIOFIRE molecular PCR technology that provides clinicians with syndromic results in a clinically relevant timeframe.

- ✓ In-house lab-grade PCR results
- ✓ Results during patient visit
- ✓ Multiple targets tested at once
- ✓ Easy to use with a streamlined workflow

EXPERIENCE THE BENEFITS OF SYNDROMIC TESTING

With integrated sample preparation, amplification, and analysis, the BIOFIRE® SPOTFIRE® Solution uses a **syndromic PCR approach**, which is defined as a symptom-driven grouping of probable pathogens into one rapid test.

Syndromic testing from BIOFIRE detects multiple pathogen targets quickly and accurately, which may reduce diagnostic guesswork, improve patient care, and contribute to overall patient satisfaction.

One sample

One unique disposable

One system

Simultaneous detection of multiple pathogens

Syndromic result with easy-to-read report

Timely impact on patient management

DESIGNED FOR ONSITE TESTING

RAPID ANSWERS

Receive fast syndromic answers in about 15 minutes*.

INTUITIVE SYSTEM INTERFACE

Designed to be run by any healthcare professional, in any setting.

SMALL FOOTPRINT

Requires minimal benchtop space with a footprint just slightly larger than a sheet of paper.

SEAMLESS CONNECTIVITY

The system can easily connect with Electronic Health Records (EHR) and other compatible systems and software.

ADVANCED USER MANAGEMENT

Administrators can set up new operators, system competency trainings, and enable initial lot lockout, among other features.

MINIMAL MAINTENANCE

No general maintenance is needed other than periodic cleaning.

SCALABLE TO YOUR NEEDS

The BIOFIRE® SPOTFIRE® System offers high throughput and random access with the ability to run up to 4 tests at the same time.

1 MODULE
26 TESTS*

2 MODULES
52 TESTS*

3 MODULES
78 TESTS*

4 MODULES
104 TESTS*

THIS CHANGES EVERYTHING.

* Calculation based on running the BIOFIRE® SPOTFIRE® Respiratory Panels (results in ~15 minutes) in an 8-hour shift.

MAKE THE MOST OF YOUR BIOFIRE® SPOTFIRE® INVESTMENT

Our goal is to provide you with the best support available while minimizing any disruption to your workflow.

Best-in-class application and engineering services

A skilled team dedicated to your success by providing global product support, solution training courses, connectivity assistance, and instrument or chemistry related troubleshooting.

CUSTOMER SUPPORT

We are committed to the rapid resolution of your technical issues.

- **VILINK®**, our proprietary service, is a **highly secure remote access solution** designed to **maximize uptime** with timely maintenance service and automatic software and firmware **updates**.
- Please contact your local bioMérieux representative or distributor for BIOFIRE products technical assistance and support.

Product availability varies by country. Please contact your local bioMérieux representative for details.
